

Saturday Oct. 7

Dear Roger:

will send New list

I have been meaning to write to you ever since the AYA in August. I wanted to thank you for showing me some of the "ropes" in half cent collecting. I think I learned more in three days from you and Ray Mundø about half cents than I learned in all my days of half cent collecting.

The AYA convention was good for me from the standpoint of acquiring half cents also. I am real happy with the coins that I picked up. I have reached the half way point - I have 48 different half cent varieties.

I can tell from your Price List #1 that you may have ended up buying Ray's collection. I think I remember seeing several of the coins on your list. In regard to your list, I wish I had a few thousand to spend. Your list must be the greatest offering of half cents ever. It is certainly the best I've seen.

There are about 30 coins on the list that I could use but for now I'll have to limit myself to two. (Actually it is my bank account that is doing the limiting.) The two coins I'd like you to send me are the 1795 CMM #1; EF-40 and the 1805 CM #1, Unc-60. I'm especially looking forward to that 1795. I have a nice VF #6a but I've been looking forward to a lettered-edge 105.

I'm anxiously awaiting the arrival of the 2 coins.

Sincerely,
John Cozan

Thursday Oct 19th

Dear Roger:

I received the 1796 half sent on Monday. actually it arrived on Saturday but I was not home when it got here. I have very good half cent collectors. I was cherry picking at a local coin show. When I got home from the show, the P.O. notice was on the mailbox. So I have to tell you how slow Sunday is huh? How frustrating it is as being very 1796 was at the P.O. but I couldn't see it. Monday after work I picked it up.

I will keep the coin. Certainly I hope to improve it someday but I am happy with it for now. I feel that your price is a very fair price. Also I would be afraid to buy a 96 from most dealers, even the "reputable" ones.

I feel certain of the authenticity of the coin for the simple reason that I bought it from you.

The coin show that I went to was in Rome, Ga. Mike Griffith and I went up for the afternoon. There was about 25 dealers present including C. F. Gordon - an EAC member. I went through his box of half cents and picked out a couple common varieties that I didn't have. I had some large cents to trade and I left his table with an 1803 #1 and 1804 #10. Since both coins were picked up in trade I can always trade them away when I get something better. I traded for one other half cent - an 1804 #9. It's a nice light brown VF-30 with no obverse breaks.

There were no real "cherries" at the show but I still considered it to be a worthwhile show. I came home with

those new pictures (total now at 52) and
some extra money.

If you get the urge to travel,
consider yourself welcome in Atlanta. I do
hope to see your collection sometime and
I would love to show you mine too.

I hope you can keep me posted on any
half-cent news. Also I may write again
when I get some more money to buy with.

Thanks very much

Sincerely,

John Cozart

10/20/72

Dear Ted

Be sure this is your coin. I've
been here from the room through
the 1000 to the 1000. I had noted this
on my original envelope from Uncle. I didn't
know of this until I wrote the
book but will be in my review of the
book at our next date

I'll be again for the order and if hope
to see you so we can go over both
collections

Sincerely
Bayer

Dear Jules,

I had one conversation in Washington on
Lincoln's disclosure to 1844 Com #4 (6-10)
to find was on my list. The best price, I can
offer it is 150⁰⁰ or if purchased it. Contributed

I really enjoyed the EAC Meeting. Nobody did
anyone who wanted to say something how a chance
but there was no pressure to cut it short. The
subjects which we deal with are just too involved
to conduct a 10 minute talk. At the 730 P.M. Meeting
Dorwin Palmer, myself, Bob Schlowitz, Dr. George
Pallas and Jeff Beck had a good time with a
grading quiz about Darwin Corbridge.

It was good seeing you again and let have
another meeting

Sincerely,
Bogers

Dear Roger,

Here is a check
for the 1804, c 4.

It was nice to
see you in Washington.
I thought we had
a nice meeting.

Jules

Promise yourself —

To be just as enthusiastic about the success of others as you
are about your own.

—Excerpt from the Optimist Creed

Dear Roger:

If you have any nice VF clean cents which you would like to build up to Condition Census, please send me a list, I am having to locate coins for a "reference set" for Mrs. Paschal in order to pry loose her "2nd or 3rd finest known". Up to now I have located only about 46 coins and have some 200 to go. Of course the collector who comes up with the duplicate, gets first chance at hers. The above does not apply to the rarities where she will accept a nice clean VG as replacement. I am currently trying to run down a VF S-8 and same S-2. I had an S-8 which is fairly common but sold it to Robinson Brown and he won't give it up.

I hope we can work out a deal on the Half Cents. The prices seem fine to me with two exceptions and I won't kick about R6 and R7 coins. You have the 1809, QM 1 priced at 15 times the Fine Red Book listing and the coin looks only VG10 at best to me. I cannot see the crack with a glass, just hints of it, and I think cracks ought to show on cents graded F12. This does not always hold for Half Cents. You have the 1804 QM #4 priced at 8 X the VG listing. I know it is hard to compare two different heads, but I think the 1804 is as good if not better than the 1809. I don't mind paying the price for the R7, but I am worried about when it will become R6. What is your count now on Dick Picker's find?

About the trades: any you cannot stand, you can return but you will have to give me time to sell the coins. I will pay you as I sell each one of them. According to the listings in estimates of current auctions: Kreisberg, Stack, Merkin, American Auction, I got some bargains from Del Bland, unless they actually sell at less than 50% of estimates. You will have to be the judge whether I am giving you too good a deal or whether it's much too little. I simply don't know the Half Cent market at all.

If the S-121 and 259 are not sold I will forward on for your inspection. One cent was not listed because it said on env. "Dorothy P. has 1st choice". She is returning the S-123 to me and if you need this one, I can send it on. I think it is F12 and a very good price on it. She is trying to get at least VF25 for her MS60 S123.

Sincerely,

Ray

Hello, Collectors! Picked up the following on the way home. Was astonished to learn that a Mint State, Late Date, medium green variety, sold for 1000 recently and am beginning to wonder about the prices for these rare BLS's. This meant to prepare you for future listings of Sheldons graded 55-65. The good factor will deny such inflation.

1796	S-96	CC/6, CC, two in AMS, (How many can own one?)	1295
	S-99	#6 in Penny Whimsy, from 1800-1955, very scarce.	125
	S-103	The scarcer LINDSEY, also #6 in P. J., amazingly free of usual abrasions for grade about 60	275
	S-117	Reduced to R5 in the new list but still an example raised above F15. Consequently this cent is within 4 points of being LINDSEY. It has the sharpness. Down-graded for a dent left of LINDSEY. Best of the 12's and would certainly cause an argument with a 15 at Whist. AMA 1958. More crack at RTX. (without dent \$600)	275
1797	S-121	Beautiful cent, very sharp, top color, about EF and probably in cc	175
	S-124	Pictured in D.C. "Best Observed Seen", Downish lot 142, 1945. Has couple reverse dips but still high cc. Another within 3 points of being first or second finest known	595
	S-134	This cent has to be very close to finest known. Traces of mint red lining the profile and around the "period" (making it look like a small star), worthy of any collection. Altho under glass the sharpness is about EF, the color surface are superb. On first sight it "hit me in the eye", because it looks AU55	350
	S-136	VF 20 and a nice one because "graded by WBS" Manjou 1957	75
	S-140	Tied for 5th and 6th in cc, "Au 50 WBS," Late State, almost perfect color and surface.	250
	S-141	Mines to Dr. Sheldon, Paschal, graded VF+. It has VF30 sharpness in most features and simply cannot be as low as 15.	250
1798	S-145	Garrabant to Mines 1922, Downing to WBS, one of two Au50's, unexcelled (I guess graded 45 in P.)	475
	S-146	"Rusty die, State A, cc". Has one rim dent right obs. very scarce	150
	S-157	Dapont sale, Stack's 9-24-54, F15.	55
	S-162	From Downing to D. Smith, almost EF sharpness and excellent color (I guess VF25 in P. but looks 30 to me)	150
	S-163	"One of finest and cleanest seen", AMA 1958, F15 and CC, a 3rd cent on this list only a few points from finest	225
	S-166	Sawicki collection (Stack's 2-27-54), Except for a peculiar very shallow line in field, a planchet defect, this cent = AU57 1/2	300
	S-168	VF25 No discernible nicks, dents or scratches	75
	S-173	VF25 Same as above	75
1802	S-232	Faded mint color to red, brn. "WBS grades 50/55" CC (Date Coll.)	195
1803	S-259	Proskay-Mines, Sheldon, Paschal, 3rd Finest by quite a margin	300
	S-264	Lot 54, Merkin 9-25-70 Very Fx3 SEND BIDS	
1808	S-279	Lohr collection (Stack's 10-24-56) another nice VF and TYPE	95
1810/	S-281	VF and even better than above	95
1796	S-91	"Last of the Caps, end of an era", Mathewson Collection, This one has a proof-like surface and a beautiful patina, strong EF looks AU \$400	
1814	S-295	Last of the Sheldons and in great demand in this condition. Graded "UNC55" (I think it's undergraded) More mint red than brown double profile, and a cent worthy of ANY collection. I sold one sharper slightly at \$450 but this one is prettier and I would prefer it in my collection	400.

There is an Adv. in Penny Wise, Nov. 15th. PLEASE, for me, state which you are sending an order from: Private mailing or AD and Thanks!

WILLIAM R. T. SMITH

P. O. BOX 514

WILMETTE, ILLINOIS 60091

312-256-2714

Nov 27, 1912

Dear Buyer,

I decided to keep two of the same year sent - the 1802/7, which I am delighted with - especially never even having seen a picture of it - and the 1809 C-3. (I don't think Smith is going to catch on as easily as C") By the way - did you see the ad in Coin World for AMERICAN ENT MAIL CO - the fellow used all of your data except the centy values

I would like to see a number of other half cents from your list. I have kept two at the last moment - but I think it would be easier seeing the common. I guess the two that I missed the most from your list were the 1803 C-2/F12 and 1804 G-4/V-8. I am still interested in the following half cents at almost any time

1804	G-10	C-4	} V-7 → 2F40
1802	x	C-1	
1804	G-10/b	C-2	} NOTHING
1804	G 6/10	C-3	
1806	x	C-3	
1808	x	C-1	
1826	(Breake)	C-2	

Best regards

WRS

WILLIAM R. T. SMITH
P. O. BOX 514
WILMETTE, ILLINOIS 60091
312-256-2714

These are the ones I would like to see

1795	C-6b	—	F12	9650.00
1797	C-3a	G-2	F15	160.00 GONE
1800	G-1	G-1	EF40	65.00
1803	C-1	G-2	VF25	30.00
1803	C-3(1)	G-3	F12	30.00 GONE
1804	C-5	G-11	EF40	275.00
1804	C-7	G-9	VF25	325.00
1804	C-7	G-9A	VF25	350.00
1804	C-9	G-5	VF20	35.00
1805	C-1	G-1	MS60	120.00 GONE
"	"	"	VF35	50.00
1807	C-1	G-1	FV50	75.00

There are many more but this is about all I
could bear to look at now

from flight station

Also, I'll have to tell the birds that I see them
- from the speaker you get now the sound of the
bird's own intention of a few more of 2 specimens.

Now to the other. Remember you should be
very close when you observe. What birds do you
observe and the birds. Also at the end of the day No
attention to what someone else says. It's not your
job to observe the birds. You should be the birds. The
bird's don't take my guesses. Use your own!!

1995 1000th 1000 of 2 specimens. This is
the 2nd found known to ME! I think the variety
will be B-C eventually - 3 lines found up the line
of the mountain.

Dec 2, 1972

Dear Roger,

I am examining the 4 coins that I know that I will pass up - the 1800, 1804-7, 1805-1, 1807 - I am examining a check for the 1805-1, which I really like again because of the die break. The 1804-7 is as nice as I am looking for - a ~~an~~ EF - that one isn't too painful since I have an "Empire V" to tell what grade is your 1804-5 without the diagonal die crack? I am exhibiting on the others - the 1804-7 no break. It seems as the one with the break is just slightly different than mine.  I may buy both - its cheaper than hoarding 1797 LE's.

I have a question on the 1795-6b: It looks like there is an undertype showing between the lower right ribbon and the A (final) in AMERICA. It looks to me like . Do you notice anything there? My wife says she can't see anything! But to me the two circular characters seem obvious. We go on to take another look at it?

I was surprised that there are as few 1826 2¢ breaks as you indicated.

I had seen the one in the Probston catalogue and the one in Alaska which had a similar design to have found. Do you know who has the 1804 cum-4, G-10 from the Probston collection? Also have many 1811 2* do you know of?

Lot #2 in Probston Dec. 12-14 looks like a nice 1794 cum-5, C-8 - I think I may bid on it as it was not attributed. I am interested also in an 1803-1 with VF EF with both reverse breaks.

I asked Dr. E. T. Montgomery to write to you. He is interested in EAC and collects half cents. He said that he had both breaks mentioned but not seen on the 1807

I forgot to add that the one 1804 cum-7, C-9A was a very pedigree (Hansen type). Have you seen one with the break formed but not extended across the face?

W. K. Raymond sent about 4 his collection when I wrote to him - his 1804 cum 4, G-10 was listed with an obverse break previously unseen. Is the 1803 cum-4 the one Raymond had? If not I would like to see it (the VF 20)

Best regards.

W. R. T. Smith

12/4/72

Dear Bob,

James of the 2nd received today, but he pic. what
you had in the letter the 1800, 1804 ~~comm#5~~, 1805 comm#
and the 1807 were not enclosed. I did not know
check for the 1803. Now to your questions

My 1804 comm#5 is in U.S. without the dogwood
branch on the bulge and the skewer I have seen still
another with the beginning of the reverse branch and the letter
in VF-20 I am currently negotiating for it.

No. I did not value any underlype on the 1795 comm#6.
I'm always looking on both the 5th + 6th (most men don't
say 6th's). It would be nice to know the thick glasslike
then from Rolled down Large Cents or Brown has
stated but until I'm sure I wouldn't say they were.

I don't know who has the Boulton 1804 comm#4
but believe Donald Partrick has it.

The 1811 2* break I have heard of - 2, 11mm
and one the Hanson was that came from the "Baptist"
sale. There is a 3rd rumored.

Dr Montgomery did write to me as far as the 1804
as I send him off a list.

I have seen Baymards 1804 comm#4 with the dogwood branch
did not mention it in my book as I had never seen one. The 1804
was silent on it. However, George R. Ross mentioned it in the
March 1916 "Numismatic" How you see these underlypes
They start with the Sept 1915 issue and run through Sept
1917. Note that in March 1916 Colburns wrote 1804

(2)

Published Neither Ross or Gilbert mention each other
His First Articles are better than Gilbert particularly since
Ross mentions his Variations in what he considers the
Emission Sequence. He fell into the trap of the "single
press theory" I'm enclosing a copy of what Ross put out
in the May 1916 issue which was after Gilbert's publication
in March 1916. I could write pages about Ross's work.
If you get a chance to get copies of His articles get
them. What this sending you is only a synopsis.

Last but not least the four new ceiling duplicates
and I don't have a 1503 on m #4 in VF-20 I had one in
VF 30 but sold it. The next highest is a F-15

Sincerely
Roger

Dec. 7, 1972

Dear Roger,

I usually forget to enclose something like a price list - not the ones they were in another envelope in my desk waiting to be mailed. I guess the post office gets double fees for this - I thought I had sent an insured package.

I definitely will take the 1804 cmm #5, 1804 cmm #7 (perfect), and 1795 mm #68. I would also like the 1804 cmm #7A but will return it you want to fill an order for it. Please let me know if this is more than you would like to have me financed on. I will be glad to revise it if not. I would expect to be able to start paying it off after the end of the year.

Some months ago Darwin Palmer gave me two issues of Calumet, with an article on 1/24 by Tom & Walter of San Jose - also a history of the Williams Sale, 1950 (half cent section). If you do not have either I can send a copy.

In reviewing the Nov 15th-PW, I would have to say the Tottenhurst's coat was the best item. I still haven't priced that 1797 loose - the fellow took some more pictures to send to other dealers - thinks he can get full redbook!

Best regards,

Bill
